The 2003 International Conference on Acoustics, Speech, and Signal Processing (ICASSP'03) will be held 6-10 April 2003, at the Convention and Exhibition Center, Hong Kong. Sponsored by the IEEE Signal Processing Society, ICASSP is the world's largest and most comprehensive technical conference focused on signal processing and its applications. The conference will feature world-class plenary speakers, tutorials, exhibits, and over 50 lecture and poster sessions on:

- Multimedia Signal Processing
- Image and Multidimensional Signal Processing
- Speech Processing
- Audio and Electroacoustics
- Sensor Array and Multichannel Signal Processing
- Signal Processing Theory and Methods
- Signal Processing for Communications
- Design and Implementation of Signal Processing Systems
- Neural Networks for Signal Processing
- Signal Processing Education
- Industrial Technology Track
- Student Paper Forum

A video conference with Beijing will also be organized.

Prospective authors are invited to submit full-length, four-page papers for presentation in any of the areas listed above. All ICASSP papers will be handled and reviewed electronically and details can be found in the conference web-site http://www.icassp2003.com. We also encourage the submission of proposals for tutorials and sessions on special topics. Proposals for tutorials should be submitted to Dr. C.F. Chan at itcfchan@cityu.edu.hk while special sessions proposals should be sent to Dr. S.C. Chan at scchan@eee.hku.hk. Enquiry for the Industrial Technology Track should be addressed to Dr. Jennifer Trelewicz at trelewicz@us.ibm.com. Please note the following important dates and plan your schedule well in advance.

**Schedule of Important Dates:**

- Proposals for tutorials and special sessions due by September 13, 2002
- Four page, full paper submission to be received by October 25, 2002
- Notification of acceptance mailed out by January 10, 2003
- Early registration February 21, 2003
